SAFETY DATA SHEET Honeywell Genetron® 500 00000011260 Version 2.3 Revision Date 01/08/2015 Print Date 03/17/2015 **SECTION 4. FIRST AID MEASURES** Inhalation : Move to fresh air. If breathing is irregular or stopped. administer artificial respiration. Use oxygen as required, provided a qualified operator is present. Call a physician. Do not give drugs from adrenaline-ephedrine group. Skin contact : After contact with skin, wash immediately with plenty of water. If there is evidence of frostbite, bathe (do not rub) with lukewarm (not hot) water. If water is not available, cover with a clean, soft cloth or similar covering. If symptoms persist, call a physician. Eve contact Rinse immediately with plenty of water, also under the eyelids, 5 for at least 15 minutes. In case of frostbite water should be lukewarm, not hot. If symptoms persist, call a physician. Unlikely route of exposure. As this product is a gas, refer to the Ingestion 2 inhalation section. Do not induce vomiting without medical advice. Call a physician immediately. Notes to physician : Because of the possible disturbances of cardiac rhythm. Treatment catecholamine drugs, such as epinephrine, should be used with special caution and only in situations of emergency life support. Treatment of overexposure should be directed at the control of symptoms and the clinical conditions. Treat frostbitten areas as needed. SECTION 5. FIREFIGHTING MEASURES Suitable extinguishing media : The product is not flammable. ASHRAE 34 Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Specific hazards during : Contents under pressure. firefighting This product is not flammable at ambient temperatures and

SAFETY DATA SHEET Honeywell Genetron® 500 00000011260 Version 2.3 Revision Date 01/08/2015 Print Date 03/17/2015 Methods for cleaning up : Ventilate the area. SECTION 7. HANDLING AND STORAGE Handling Handling : Handle with care. Avoid inhalation of vapour or mist. Do not get in eyes, on skin, or on clothing. Wear personal protective equipment. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50 °C. Follow all standard safety precautions for handling and use of compressed gas cylinders. Use authorized cylinders only. Protect cylinders from physical damage. Do not puncture or drop cylinders, expose them to open flame or excessive heat. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Do not remove screw cap until immediately ready for use. Always replace cap after use. Advice on protection ÷ The product is not flammable. Can form a combustible mixture with air at pressures above against fire and explosion atmospheric pressure. Storage Requirements for storage Pressurized container: protect from sunlight and do not expose areas and containers to temperatures exceeding 50 °C. Do not pierce or burn, even after use. Keep containers tightly closed in a dry, cool and well-ventilated place. Storage rooms must be properly ventilated. Ensure adequate ventilation, especially in confined areas. Protect cylinders from physical damage. SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION Protective measures : Do not breathe vapour. Page 5 / 14
